

MarkitLend United States Consumer Credit Fund (MarkitLend USCF)

Fund summary

MarkitLend US Consumer Credit Fund (USCF) invests in a well-diversified portfolio of Alternative Assets Private Credit US consumer loans. The Fund focuses its investment in loans with the stated purpose of refinancing credit card debt or debt consolidation. The portfolio has purchased 4,387 loans. The Fund seeks to achieve a high level of income as well as return of principal with low volatility. Maturities of the loans in the portfolio are up to 60 months. The continuous flow of income and principal enables the fund to reinvest continuously and compound returns. Further, the relatively short duration of the portfolio effectively lowers overall volatility in response to changes in interest rates. **Continuous positive monthly returns since inception April of 2017, almost 8 years.**
